For the 2020-2021 school year, my child/children will attend

- Ophir Elementary School (grades k-5): 180 (69.2%)
- Ophir Middle School (grades 6-8): 103 (39.6%)
- Lone Peak High School (grades 9-12): 58 (22.3%)
- My child/children will not attend school: 1 (0.4%)
- 2 children in elementary, and 1 in middle school: 3 (1.2%)
After reviewing the Re-Opening Communication document above, I feel most comfortable with the following Learning Model to start the 2020-2021 school year.

Thank you for all of your hard work planning and preparing for the school year. We understand the difficulty and complexity of these educational decisions. Our family feels comfortable planning for the children to attend in-person class. With that being said, we also understand that the plans may need to be modified in the future. We will be flexible and compliant, as new research is available about how to continue to safely have in-person class.

We appreciate all that you are doing, and the innovative and creative ways you are planning to have the children learn this year.

Thank you again!

A lot of the Big Sky kids have been in BSCO’s day Camp together for the last six weeks and will be until school opens. They are doing great. I realize they are outside a lot however in these crazy and uncertain times the only solace I feel is that our kids are largely unaffected. My child will be in first grade, there are only about 30 kids all together in that grade. Perhaps there is a way to keep the grades separate. I feel totally comfortable with my kid going to school with her peers.

We’re fine with 100% distance If that is the direction the school board decides. I like the idea of some socialization/interaction 50/50 model but understand that may not
